

*You were beloved
You were a dear friend of mine
Cherished by your family touched many hearts at a time
They say love
Is the best gift of all
And that time has the power to heal all wounds
Well I hope it's true
Because there's no easy way of losing you*

*Don't push back or carryover
Don't slow down don't hold up
Stay on track and don't brush over
Don't delay don't give up
Cuz you never really know which day will be your last one on Earth*

*Here's to you and to all the things you taught me
To be as free as the birds on the mountain tops
Well I hope it's true cuz there's no easy way of losing you*

*Don't push back or carryover
Don't slow down don't hold up
Stay on track and don't brush over
Don't delay don't give up
Cuz you never really know which day will be your last one on Earth*

*I still see your sweet smile
I still hear your tender voice
May not see you for awhile
But when it's time we'll rejoice*

*Don't push back or carryover
Don't slow down don't hold up
Stay on track and don't brush over
Don't delay don't give up
Cuz you never really know which day will be your last one on Earth*
